Service Fees and Charges

Details of Services Available

This booklet details the fees and charges for services provided by the Department of Primary Industries and Regional Development.

There are some services not included in this booklet. These include charges calculated on a cost recovery basis, which can be provided on enquiry. Services exempt from fees and charges are also not included, but are listed separately below.

Some fees and charges have been determined under regulation 125 of the Biosecurity and Agriculture Management Regulations 2013, which were published in the WA Government Gazette on 15 June 2018. Others have been determined on a fee for service basis.

Private practitioners and consultants will be required to pay for the services listed in this booklet.

Fees may be subject to review throughout the financial year and may change either by approval of the Director General, Department of Primary Industries and Regional Development, or by amendment to regulation (as applicable).

Payment

Payment options for fees and charges are listed at the end of this booklet.

GST calculations and rounding

The approved Australian Taxation Office method of line item approach has been adopted in the rounding of GST charges.

Exemptions

The following regulatory activities carried out under the *Biosecurity and Agriculture Management Act 2007* (BAM Act) are exempt from fees and charges. These exemptions are listed in the determination published in the WA Government Gazette on 15 June 2018:

- a) permits (other than import permits) to introduce, move or supply a declared pest, provided that at the destination the pest is exempt from keeping requirements, or the destination is a quarantine facility or a place at which that pest is authorised to be kept under a keeping permit;
- b) the inspection, at road inspection points, of vehicles, agricultural products and animals kept as pets;
- c) the inspection of passengers and/or passengers' baggage at inspection points;
- d) the assessment of freight declarations conducted at road inspection points or at the office of the Department of Primary Industries and Regional Development at 24 Fricker Road, Perth Airport;
- e) the first 25km travel for inspection of an organism or potential carrier other than an animal in the metropolitan area;
- f) a surveillance inspection, being an inspection undertaken to determine the status of a place or thing regulated by or under the Act which is not an inspection to monitor compliance with import requirements, or compliance with a direction or authority given under this Act;
- g) an inspection monitoring the import of low risk prescribed potential carriers (see below); and
- h) an inspection funded by an Industry Funding Scheme established under regulations made under section 141 of the BAM Act.

Low risk prescribed potential carriers

Inspections of the items listed below are carried out randomly to confirm that they are prepared appropriately. Any corrective action required (including treatment, re-export or destruction) will be at the cost of the person in charge of the consignment, and penalties may apply if a consignment is found to have been imported in contravention of import requirements. Low risk prescribed potential carriers include:

- shipping containers and containerised goods not containing prescribed potential carriers;
- new or used boats or vehicles;
- processed seeds, grains or nuts that are not whole seeds, including but not limited to walnut meat, split lentils, almond kernels, ground seed types, roasted or blanched nuts or seeds, shelled nuts or seeds, and de-husked coconuts;
- dried herbs, spices or potpourri which are finely chopped or ground, and do not contain whole seed unless processed, with the exception of the following which must be commercially packaged and labelled to identify contents: mustard, fennel, cumin, caraway, star anise, fenugreek, peppercorns, vanilla bean, cardamom;
- frozen unprocessed fruit and vegetables which are not prohibited. eg. do not contain, or are not, whole grapes, mangoes or blueberries;
- semi-processed vegetables, including commercially par-boiled vegetables of any type, and commercially peeled and cut below ground vegetables, including but not limited to onions, potatoes, sweet potatoes, carrots, and garlic.

Laboratory charges

DPIRD Diagnostics and Laboratory Services charge for services provided. Each laboratory report includes a cost advice summary with a breakdown of the individual test charges and a separate agency tax invoice for payment. Charges are negotiable for bulk submissions. A case handling fee is applied to all submissions to cover administration and overhead charges. The submitter will be invoiced in all cases.

The Animal Pathology Laboratories will, if required, send samples to external laboratories for processing. Costs incurred by the Lab from these external laboratories, plus any additional costs (for example transport), will be passed on to the client in full.
