

Orchard Walk – Manjimup

27 March 2015

Guest speakers

Karen Lewis, tree fruit extension specialist, Washington State University
Steve Spark, AgFirst, New Zealand

A group of about ten people, mostly men, are standing in a grassy field with young trees in the background. They are dressed in casual work clothes like t-shirts, shorts, and hats, suggesting an outdoor agricultural setting. The background shows a line of young trees supported by stakes, typical of a new orchard plantation.

Topics

- Mechanisation to boost labour productivity
- What we can learn from this year's harvest to improve next year's crop

Date: Friday 27 March 2015

Time: 9am

Location: Lyster's Orchard,
South West Highway
Manjimup, WA
